
Burgess Hill Town Council

Internal Audit Report: 2017-18 (Interim Update)

Prepared by Nigel Archer

*For and on behalf of
Auditing Solutions Ltd*

This report has been prepared for the sole use of Burgess Hill Town Council. To the fullest extent permitted by law, no responsibility or liability is accepted by Auditing Solutions Ltd to any third party who purports to use or rely on, for any reason whatsoever, this report, its content or conclusions.

Background and Scope

The Accounts and Audit Arrangements introduced from 1st April 2001 require all Town and Parish Councils to implement an independent internal audit examination of their Accounts and accounting processes annually. The Council complied with the requirements in terms of independence from the Council decision making process appointing Auditing Solutions Ltd to provide the function to the Council: this report sets out those areas examined during the course of our recent update visit to the Council, which was undertaken on 6th February 2018 and supplements the initial interim work which took place on 4th October 2017. A further update will be prepared and issued subsequent to the conclusion of the Statement of Accounts and Annual Return detail at a date to be arranged in May / June 2018.

Internal Audit Approach

In continuing our review of the Council's processes and records for 2017-18 we have examined a selection of the Council's fundamental central financial control functions in order to provide assurance to members and the electorate that the systems continue to operate in accordance with best practice and approved Council procedures: we have also had regard to the materiality of those transactions and their susceptibility to potential misrecording or misrepresentation in the year-end Statement of Accounts.

As in previous years, we have assessed the risks associated with each financial system, based on previous experience of the extent of potential for those risks coming to fruition and tailored our review programme accordingly.

Overall Conclusion

We are pleased to conclude that, in the areas examined to date, the Council continues to have effective systems in place to ensure that transactions are free from material misstatement. The Responsible Finance Officer (RFO) and his staff are again to be commended on the quality of work produced and the high standards of documentation produced for the purposes of our audit visits

We are again pleased to report that no issues have been identified from the work completed to date warranting formal comment or recommendation.

Detailed Report

Review of Accounting Arrangements & Bank Reconciliations

Our objective here is to ensure that the accounting records are being maintained accurately and currently and that no anomalous entries appear in cashbooks or financial ledgers. The Council remains a full Sage software user, with Current and Interest Bearing Deposit accounts operated at NatWest Bank with separate cashbooks in the nominal ledger records. There is currently one supplementary Term deposit holding (at Santander Bank), which is being “rolled over” on a monthly basis until such time as members determine an appropriate longer-term investment. Consequently: -

- We have again verified that an appropriate nominal ledger structure remains in place;
- We have checked and agreed the opening Trial Balance in the Sage software for 2017-18 to the closing Financial Statements for 2016-17 to ensure that all the detailed balances have been properly rolled forward with no matters arising to warrant formal comment or recommendation;
- We have checked and agreed two sample months’ receipts and payments transactions (August and December 2017) from both the Current account and Special Interest Bearing account cashbooks to relevant bank statements, including the daily “sweep” transfers; and
- Finally in this area we have checked and agreed the software based bank reconciliations as at 31st August 2017 and 5th January 2018 to ensure that there are no long-standing, uncleared items or other another anomalous entries arising.

Conclusions

We are pleased to report that no issues have been identified in this review area this year: we shall undertake further work as considered necessary at our final visit, including verifying the accurate disclosure of year-end balances in the Council’s more detailed Accounts and the year’s Annual Return subject to external audit certification.

Review of Corporate Governance

Our objective in this area is to ensure that the Council has a robust regulatory framework in place; that Council and Committee meetings are conducted in accordance with the adopted Standing Orders and Financial Regulations and that, as far as we are able to ascertain, no actions of a potentially unlawful nature have been or are being considered for implementation.

- We note that the Council’s extant corporate documentation such as Standing Orders, Financial Regulations & Members’ Code of Conduct are subject to ongoing review and were most recently considered fit for purpose in June and July 2016, having been appropriately revised in accord with contract limits and publication regulations; and
- We have extended our examination of the minutes of Full Council and its Key Area Groups’ meetings (with the exception of Planning) for the year to end December 2017 to ensure that, as far as we can practically be expected to be aware no issues exist affecting the Council’s financial stability in the short, medium or long-term exist. We

note the current potential development / public consultation for a new “Performance Venue” in the town but clearly this is a longer term matter with no conclusions of note to date.

Conclusions

There are no matters arising in this area to warrant formal recommendation currently.

Review of Expenditure

Our objective here is to ensure that: -

- Council resources are released in accordance with the Council’s approved procedures and budgets;
- An official order has been raised for supply of goods and services on each occasion where one would be anticipated;
- Payments are supported by appropriate documentation, either in the form of an original trade invoice or other appropriate form of document confirming the payment as due and/or an acknowledgement of receipt, where no other form of invoice is available;
- All discounts due on goods and services supplied are identified and appropriate action taken to secure the discount;
- The correct expense codes have been applied to invoices when processed; and
- VAT has been appropriately identified and coded to the control account for periodic recovery.

We have extended our sample of payments examined to include those to late January 2018, including all those individually in excess of £3,000 together with a more random sample of every 30th cashbook transaction (irrespective of value) during the period. Our test sample comprised approximately 80 payments totalling more than £538,000 and represented 74% of all non-pay expenditure incurred during the year to that date.

With regard to VAT, we note that the RFO continues to make timely, electronic return submissions: we have previously examined the detail of the March 2017 debtor and return and verified the disclosure in the Statement of Accounts and at this interim update visit we have noted the appropriate conclusion of the December 2017 submission in accord with the underlying Sage control account balances as required.

Conclusions

There are no matters arising in this area to warrant formal recommendation currently.

Assessment and Management of Risk

Our aim here is to ensure that the Council has put in place appropriate arrangements to identify all potential areas of risk of both a financial and health / safety nature, whilst also ensuring that appropriate arrangements exist to monitor and manage any risks identified in order to minimise the opportunity for their coming to fruition.

- We have previously noted that the Summary Risk Assessments are presented to Full Council annually and are pleased to note that those for 2017-18 were duly re-considered and agreed in May 2017: these are supported by various H&S assessments in relation to the Cemetery and the Town's maintenance team but we have not separately identified such at this interim stage; and
- We note that the Council's insurance cover continues to be provided by Zurich and have obtained a copy of the current year's policy schedule (to July 2018): both Public and Employer's Liability remain at £10 million whilst Fidelity Guarantee remains at £500,000 and there is adequate Business Interruption cover in place.

Conclusions

There are no matters arising in this area to warrant formal recommendation currently.

Precept Determination and Budgetary Control

We aim, in this area of our work, to ensure that the Council has appropriate procedures in place to determine its future financial requirements leading to the adoption of an approved budget and formal determination of the amount to be precepted on the District Council, that effective arrangements are in place to monitor budgetary performance throughout the financial year and that the Council has identified and retains appropriate reserve funds to meet future spending plans. Consequently:

- We note from examination of current Council and Key Area Group minutes that periodic budget monitoring reports continue to be considered by members of the Finance Group (most recently to 31st December 2017), minutes of which are subsequently affirmed by Full Council, and there are no significant, un-explained variances arising therein; and
- We note from recent Agenda papers for meetings held in late January 2018 that members had been provided with, and duly considered in some detail, the proposed budgets and Precept for 2018-19 and also for 2019-20 in the light of the potential Venue development. Whilst this update visit was too early for minutes of these meetings to have been approved, we are verbally advised by the RFO that Full Council ratified the Finance recommendations and the Precept was formally adopted at £915,962.

Conclusions

There are no matters arising in this area currently to warrant formal recommendation: we shall consider the closing levels of General and Earmarked Reserves as part of the final audit work in due course.

Review of Income

In considering the Council's income streams, we aim to ensure that robust systems are in place to ensure the identification of all income due to the Council from its various sources, to ensure that it is invoiced in a timely manner and that effective procedures are in place to pursue recovery of any outstanding monies due to the Council.

- We are pleased to note that members continue to review the Council's scales of fees and charges annually, those for 2017-18 having been affirmed at the Finance Group meeting in November 2015;
- As noted earlier in this report, we have checked and agreed two sample months' receipts transactions from cashbooks to relevant bank statement;
- All About Town advertising in the December 2017 has been checked to ensure that each trader was charged the correct level of fees in accord with the current published rates depending on size taken and whether colour or black & white;
- All sundry incomes of any substantial value have been verified from Sales Ledger day books to copy invoices to ensure that there are no errors or omissions where receipts could ordinarily have been expected, such as monthly lettings at Worlds End; and
- We have tested the incomes arising from Cemetery activities by reference to a sample period (five months from August to December 2017 inclusive) of burial register entries to ensure that each was properly supported by Funeral Director application forms, death / cremation certificates, fees were properly levied in accord with the current published scales and that receipts had been banked in a timely manner.

Conclusions

There are no matters arising in this area to warrant formal comment or recommendation at present: we shall undertake any further testing of income, including the update of our year-on-year analysis of income, as considered necessary as part of the final audit work.

Petty Cash and Credit Card Usage

We are required, as part of the Internal Audit Certification process in the Annual Return to assess and give a view on the effectiveness of control over any petty cash account in use by the Council.

- The Council operates a reasonably limited petty cash scheme in the Administration office, "topped up" as and when required by either cheque encashments or Help Point receipts. We have examined a sample month's transactions (August 2017) to ensure that each payment was properly supported by an appropriate supplier invoice and / or till receipt and that any recoverable VAT was separately identified. No issues arise from this testing: sequentially numbered vouchers continue to be maintained, all payments were properly authorised and the RFO undertaking independent, periodic reconciliations from Sage control account to the cash balances held; and
- We also note that a NatWest Commercial charge card is in place, with a monthly credit limit of £5,000 settled by automatic monthly direct debit. The card is retained in the possession of the RFO, who is currently the only authorised user, generally for emergency purposes or to take advantage of internet supplier deals. In a similar manner to the review of Petty Cash noted above, we have examined a sample

month's transactions (August 2017) to ensure that each was appropriate for the Council's activities and properly supported by suppliers invoices / till receipts.

Conclusions

There are no matters arising in this area to warrant formal recommendation currently.

Salaries and Wages

In examining the Council's payroll function, we aim to confirm that extant legislation was being appropriately observed as regards adherence to the Employee Rights Act 1998 and the requirements of HM Revenues and Customs (HMRC) legislation as regards the deduction and payment over of income tax and NI contributions, together with meeting the requirements of the local government pension scheme as further revised from 1st April 2017 in relation to the employee contribution percentage bandings. We have commenced our examination of the payroll procedures in place and the physical payments made to staff to date in 2017-18 by reference to the August 2017 documentation, the underlying detail for which continues to be produced "in house" by the RFO utilising bespoke SAGE payroll software. Consequently:

- Gross pay rates have been checked to ensure that the NJC pay award for 2017-18 had been duly implemented;
- PAYE Tax Codes and National Insurance Rates have been checked to ensure that appropriate allowances are being applied for the year following the annual budgetary increases in personal allowances with effect from April 2017;
- Local Government Pension Scheme deduction rates have been checked to ensure they are in accord with the revisions to the bases of employee contributions, most latterly with effect from 1st April 2017 (albeit relatively minor changed to the salary banding widths);
- Variable hours and expenses have been verified to individuals' timesheets and claim forms;
- We have checked and agreed the net pay computations on pay slips to the payroll summaries and resultant bank statement and cashbook transactions; and
- We note that electronic monthly returns are made in a timely and accurate manner in accord with current HMRC legislation (aka Real Time Initiative).

Conclusions

There are no matters arising in this area to warrant formal recommendation currently.

Investments and Loans

Our objectives here are to ensure that the Council is "investing" surplus funds, be they held temporarily or on a longer term basis, in appropriate banking and investment institutions, that an appropriate investment policy is in place, that the Council is obtaining the best rate of return on any such investments made and that interest earned is brought to account correctly and appropriately in the accounting records.

We also aim to ensure that any loan repayments due to or payable by the Council are processed in accordance with the respective and relevant loan agreements.

- We previously noted in our final report for 2016-17 that the twelve month, fixed term Bond held with Santander Bank had matured in December 2016 and we had subsequently verified the monthly re-investments and maturities, including the interest thereon which was being similarly “rolled over”, to the end of March 2017. At this update visit, we note that this remains the case throughout 2017-18 to date; and
- The Council currently has two PWLB liabilities and we have checked and agreed the instalment repayments to date for 2017-18 (in June, September and November 2017) to their third party advice notes as part of the higher value supplier testing noted earlier in this resume.

Conclusions

No matters warranting formal comment or recommendation arise in this area currently: we shall verify the accurate disclosure of the periodic investments and residual loan account balances in the Statement of Accounts and Annual Return as part of our final audit review.
