

Burgess Hill Town Council

Internal Audit Report: 2021-22 (First interim)

Stuart J Pollard

*Director
Auditing Solutions Ltd*

Background and Scope

Statute requires all town and parish councils to arrange for an independent Internal Audit (IA) examination of their accounting records and systems of internal control and for the conclusions to be reported each year in the Annual Governance and Accountability Return (AGAR). We thank the Corporate Finance Manager (CFM), and his colleagues for their assistance in providing a mix of hard copy and electronic documentation to facilitate completion of this first interim review for 2021-22.

Internal Audit Approach

In undertaking our review of the Council's processes and records for 2021-22 we have examined a selection of the Council's fundamental central financial control functions applying appropriate sample testing in each area to provide assurance that the Council's systems and controls continue to operate effectively, securely, and in line with best practice and the Council's approved procedures. We have also had regard to the materiality of those transactions and their susceptibility to potential misrecording or misrepresentation in the year-end Statement of Accounts and AGAR.

As in previous years, we have assessed the risks associated with each financial system, based on previous experience of the extent of potential for those risks coming to fruition and tailored our review programme accordingly.

Overall Conclusion

We are pleased to conclude that, in all the areas examined to date, the Council continues to operate effective controls that help ensure that transactions are free from material misstatement: we are again pleased to report that no significant issues or concerns have been identified from the work completed to date with only one or two areas where we consider a degree of action is required to ensure compliance with best practice and extant legislation.

Detailed Report

Review of Accounting Arrangements & Bank Reconciliations

Our objective here is to ensure that the accounting records are being maintained accurately and currently and that no anomalous entries appear in cashbooks or financial ledgers. The Council uses Sage software to maintain its financial records, with Current and Interest-Bearing Deposit accounts operated at NatWest Bank in separate “cashbooks” in the nominal ledger records. A supplementary Term Deposit holding remains in place with Santander Bank, which is “rolled over” monthly until such time as members determine to place surplus funds in an appropriate longer-term investment. Consequently, we have: -

- Ensured that an appropriate nominal ledger structure remains in place;
- Checked and agreed the opening Trial Balance in the Sage software for 2021-22 to the closing Financial Statements for 2020-21 to ensure that all the detailed balances have been brought forward accurately;
- Checked and agreed two months’ receipts and payments transactions (April & September 2021) in both the Current and Interest-Bearing account “cashbooks” to supporting bank statements, including the daily “sweep” transfers; and
- Checked and agreed the software-based bank reconciliation as of 2nd November 2021 on both the Current and Interest-Bearing accounts to ensure that there are no long-standing, uncleared items or other anomalous entries in existence.

Conclusions

We are pleased to record that no issues arise in this area currently warranting formal comment or recommendation. We shall undertake further work in this area at future reviews including the examination of at least one further month’s account transactions. We shall also ensure the accurate disclosure of the combined cash and bank account balances in the year’s Statement of Accounts and the AGAR at Section 2, Box 8.

Review of Corporate Governance

Our objective in this area is to ensure that the Council has a robust regulatory framework in place; that Council and Committee meetings are conducted in accordance with the adopted Standing Orders (SOs) and Financial Regulations (FRs) and that, as far as we are reasonably able to ascertain, no actions of a potentially unlawful nature have been or are being considered for implementation.

We note that the Council’s extant corporate documentation (SOs & FRs) are subject to periodic review with the latter last re-adopted in June 2021. Examination of their content indicates that they require a degree of update to incorporate appropriate reference to the Public Contract Regulations 2015, rather than the 2006 referred to in the SOs at Para 26.2.b.

We have examined the minutes of the Full Council and its Key Area Group meetings (with the exception of Planning) for the year to date to ensure that, as far as we can reasonably ensure, no issues exist affecting the Council’s financial stability in the short, medium or long-term.

We have previously noted the planned development of a new cultural centre (The Beehive), noting that progress has stalled temporarily due to the Covid situation. We also note that the Council has had a £4.8 million loan approved by the UK Debt Agency to assist with the development of the former British Legion site and will continue to monitor progress in this respect at future visits.

Finally in this area, we note that the external auditor raised various issues in their certificate on the 2020-21 AGAR relating to timing issues on adoption of the AGAR and publication of the Notice of Public Rights. Careful consideration will need to be given to these matters ensuring that the 2021-22 AGAR Governance Statement is completed appropriately.

Conclusions and recommendations

Whilst there are no significant matters arising in this area, we urge that the Council undertakes a comprehensive review of its SOs and FRs ensuring that they reflect the requirements of the 2015 amended Public Contracts Regulations. Also, as above, consideration should be given to the 2021-22 AGAR Governance Statement assertions in the light of the 2020-21 External Audit report on that year's AGAR.

- R1. *When next reviewing the Council's formal governance documentation (i.e., Standing Orders and Financial Regulations) care should be taken to ensure they record and reflect the requirements of the updated (2015) edition of the Public Contract Regulations.*
- R2. *When completing the 2021-22 Governance Statement at Section 1 of the year's AGAR, care will need to be taken to ensure that appropriate assertions are given in the light of the 2020-21 external audit report.*

Review of Expenditure

Our objective here is to ensure that: -

- Council resources are released in accordance with the Council's approved procedures and budgets;
- An official order has been raised for supply of goods and services on each occasion where one would be anticipated;
- Payments are supported by appropriate documentation, either in the form of an original trade invoice or other appropriate form of document confirming the payment as due and/or an acknowledgement of receipt, where no other form of invoice is available;
- All discounts due on goods and services supplied are identified and appropriate action taken to secure the discount;
- The correct expense codes have been applied to invoices when processed; and
- VAT has been appropriately identified and coded to the control account for periodic recovery.

We have commenced our examination of the controls over expenditure examining a sample of payments in the year to the end of October 2021. Our test sample includes all payments individually in excess of £3,000 together with a further selection of every 40th cashbook transaction (irrespective of value) including 29 individual payments including two annual NNDR payments and totalling

£102,950. We are pleased to report that all payments were fully supported and met the above criteria.

With regard to VAT, we note that the CFM continues to make timely, electronic return submissions and have examined those returns for the June and September 2021 quarter-ends with no issues arising

Conclusions

There are no matters arising in this area to warrant formal recommendation currently. We shall extend work in this area at future visits including the selection of a further sample of payments processed over the remainder of the financial year, also examining the remaining quarterly VAT returns.

Assessment and Management of Risk

Our aim here is to ensure that the Council has put in place appropriate arrangements to identify all potential areas of risk of both a financial and health / safety nature, whilst also ensuring that appropriate arrangements exist to monitor and manage any risks identified in order to minimise the opportunity for their coming to fruition.

We note that the Summary Risk Assessment has been reviewed, presented and adopted by full Council at the May 2021 meeting. We have examined the content of the document and consider that it remains appropriate for the Council's present requirements.

We note that the Council's insurance cover continues to be provided by Zurich and have reviewed the current year's policy schedule: with Public and Employer's Liability cover in place at £15 million and £10 million respectively, together with Fidelity Guarantee cover in place at £500,000, we consider the level of insurance cover appropriate for the Council's present requirements.

Conclusions

We are pleased to record that no issues have been identified in this area warranting formal comment or recommendation: we shall continue to monitor the Council's approach to risk management at future review visits.

Precept Determination and Budgetary Control

We aim, in this review area, to ensure that the Council has appropriate procedures in place to determine its future financial requirements leading to the adoption of an approved budget and formal determination of the amount to be precepted on the District Council, that effective arrangements are in place to monitor budgetary performance throughout the financial year and that the Council has identified and retains appropriate reserve funds to meet future spending plans.

We have noted previously from our examination of minutes that periodic budget monitoring reports and accompanying variance analysis commentaries continue to be considered by members of the Finance KAG, minutes of which are subsequently affirmed by Full Council, with no significant, unexplained variances identified in the latest such report.

This review took place in advance of the Council's formal deliberation and determination of the budgetary and precept requirements for 2022-23: consequently, we shall revisit this area as part of our next review.

Conclusions

No issues arise in this area currently: we shall ensure at our next review that the 2022-23 budget and precept have been discussed and adopted formally, also reviewing the latest (to the date of that review) budget report and following up seeking explanations for any significant variances that might arise. We shall also, as in previous years, assess the appropriateness of the level of retained reserves at the financial year-end to meet the Council's ongoing revenue spending requirements and potential development aspirations.

Review of Income

In considering the Council's income streams, we aim to ensure that robust systems are in place to ensure the identification of all income due to the Council from its various sources, to ensure that it is invoiced in a timely manner and that effective procedures are in place to pursue recovery of any outstanding monies due to the Council.

We are pleased to note that members continue to review the Council's scales of fees and charges annually, those for 2021-22 having been affirmed at the Finance Key Area Group meeting in the previous municipal year in accordance with the Council's FRs.

We have examined a sample of 6 burials occurring between April to October 2021 by reference to the official records now maintained electronically ensuring that the appropriate legally required documentation (i.e., burial / cremation certificates), together with undertaker's applications are retained and that fees have been charged and paid in accordance with the approved scale of fees and charges. We are pleased to record that no issues have arisen in this respect.

We have also, at this first visit, examined income arising from annual plot rentals at the six allotment sites managed by the Council, full and appropriate detail being recorded on a spreadsheet record for each of the six sites: we are pleased to note that the spreadsheet identifies the date of settlement and manner in which payment has been made to the Council. We are pleased to record that the appropriate fees have been recovered with only 7 tenants currently identified as having still to pay their allotment rents. We will check the position again when undertaking the final review for the year.

Conclusions

We are pleased to record that there are no issues arising in this area currently: we will undertake further work on the Council's other income streams at our interim update review visit.

Petty Cash and Credit Card Usage

We are required, as part of the IA certification process in the AGAR to assess and give a view on the effectiveness of control over any petty cash account in use by the Council. The Council operates a limited petty cash scheme in the Administration office, "topped up" as and when required by either cheque encashments or Help Point receipts. We have examined a sample of transactions

occurring to date in November 2021 and are pleased to record that all transactions are appropriately supported.

We have also checked and agreed the physical cash holding during the course of our review visit noting a potential shortfall of £5.71.

We note that a NatWest Commercial charge card remains in use, with a monthly credit limit of £5,000 settled by automatic monthly direct debit. The card is retained in the possession of the CFM who is currently the only authorised user, generally for emergency purposes or to take advantage of internet supplier deals and, as part of the cashbook to bank statements testing noted earlier in this report, we have verified one month's detail as part of our aforementioned payment testing review, also referring to the underlying supporting documentation with no issues arising.

Conclusions

There are no matters arising in this area warranting formal recommendation currently, although we urge that the CFM undertakes the quarterly "petty cash audit" as referred to in the FRs para 27.8b, formally recording the outcome of that review and signing-off and dating the documentation accordingly.

Review of Staff Salaries

In examining the Council's payroll function, we aim to confirm that extant legislation is being appropriately observed as regards adherence to the Employee Rights Act 1998 and the requirements of HMRC legislation as regards the deduction and payment over of income tax and NI contributions, together with meeting the requirements of the local government pension scheme as last revised from 1st April 2021 in relation to the employee contribution percentage bandings. We have examined the payroll procedures in place together with a sample of physical payments made to staff in October 2021 by reference to the underlying payslips, which are produced "in house" by the CFM using bespoke SAGE payroll software. Specifically, we have: -

- Ensured that all staff gross pay for the above month is in line with the CFM's schedule of staff in post, which identifies either the point on the national NJC salary scale or the appropriate hourly / fixed payment rate and contracted weekly hours payable;
- Checked deductions of tax by reference to staff tax codes, as advised by HMRC and recorded on the payslips, also ensuring that the appropriate NI deductions and employer's contributions have been calculated and applied;
- Ensured the appropriate pension contribution percentages have been applied noting one instance where a new appointee (employee ref 133) has had their September pension contribution deducted at 5.8% instead of the correct rate of 5.5%; and finally
- Noted that electronic monthly returns are made in a timely and accurate manner in accord with current HMRC legislation (aka Real Time Initiative).

Conclusions

We have drawn the application of the incorrect pension payment percentage to the CFM who has agreed to make the necessary amendment in the employee's next month's salary payment. Consequently, we do not consider it necessary to raise a formal recommendation and will ensure the correct percentage deduction is being applied at our next review.

Investments and Loans

Our objectives here are to ensure that the Council is “investing” surplus funds, be they held temporarily or on a longer term basis, in appropriate banking and investment institutions, that an appropriate investment policy is in place, that the Council is obtaining the best rate of return on any such investments made and that interest earned is brought to account correctly and appropriately in the accounting records.

We note that, other than reference to the Council’s approach to investments in the FRs, no formal Investment Strategy / Policy is in place. Statutory guidance on local government investments, issued under section 15(1)(a) of the Local Government Act 2003, was revised with effect for financial years commencing on or after 1st April 2018 now requiring all councils with funds held in excess of £100,000 to develop and formally adopt an appropriate Investment Strategy / Policy. To assist the Council, we have provided the CFM with sample copies of documents in place at a couple of our other clients.

We also aim to ensure that any loan repayments due to or payable by the Council are processed in accordance with the respective and relevant loan agreements.

We note that the term deposit held with the Santander Bank continues to be “rolled over” each month and have verified the re-investments and maturities, including the interest thereon, to the end of October 2021.

The Council currently has two PWLB loans being repaid half-yearly: we have checked the first half-yearly repayment for 2021-22 as part of our above referenced payment review, agreeing the August 2021 repayment to the third party advice note.

Conclusions and recommendation

We will check the second loan repayment for the year to the supporting PWLB demand at our final review, also ensuring the accurate disclosure of the residual loan liability as of 31st March 2022 in the year’s AGAR at Section 2, Box 10.

R3. The Council should ensure compliance with the requirements of the above statute developing and adopting an appropriate Investment Strategy / Policy.

Rec. No.	Recommendation	Response
Review of Corporate Governance		
R1	When next reviewing the Council's formal governance documentation (i.e., Standing Orders and Financial Regulations) care should be taken to ensure they record and reflect the requirements of the updated (2015) edition of the Public Contract Regulations.	
R2	When completing the 2021-22 Governance Statement at Section 1 of the year's AGAR, care will need to be taken to ensure that appropriate assertions are given in the light of the 2020-21 external audit report.	
Review of Investments and Loans		
R3	The Council should ensure compliance with the requirements of the above statute developing and adopting an appropriate Investment Strategy / Policy.
